Step 1: My Democracy

French political groups

OBJECTIVES

- Help participants identify different French political groups and the political parties within them
- Introduce the idea of political parties

DESCRIPTION

Over the course of this activity, the participants will identify most of the political parties and place them within the different political groups. Then they will match the political groups with policies and ideas that they currently or historically propose.

Note: Doing this activity is crucial before doing the following activity "European political groups vs. national political groups" which deals with the organisation of the political groupings at the European Parliament level.

DURATION

50 mins
